# ANNUAL REPORT

2022/2023

**Dear Supporting Friends,**

With heartfelt appreciation, I reflect on our shared journey over the past year. Each day has been a leap towards making a significant difference in the lives we aim to uplift. Our collective dedication to change is what propels us forward.

This year, we celebrate the story of Nour, an 11-year-old refugee turned community advocate. Her journey, captured through her own lens in the Za'atari refugee camp, embodies the profound potential within every individual and reminds us of our mission: putting the last, first.

Our collective achievements have been remarkable. Through innovative education programs, we've transformed learning for marginalized communities. Your unwavering support has been instrumental in these strides.

We've also expanded our reach through partnerships within Jordan's development sector, enhancing our capacity to serve. When disaster struck in Syria, we, alongside the Syrian Society for Social Development (SSSD), provided relief to over 900 families, reaffirming our commitment to those most in need.

Looking ahead, we're excited about the opportunities the future holds. We're branching into new sectors like project management, vocational training, mental health, and environmental sustainability. We also plan to leverage technology to expand our reach and enhance our operations.

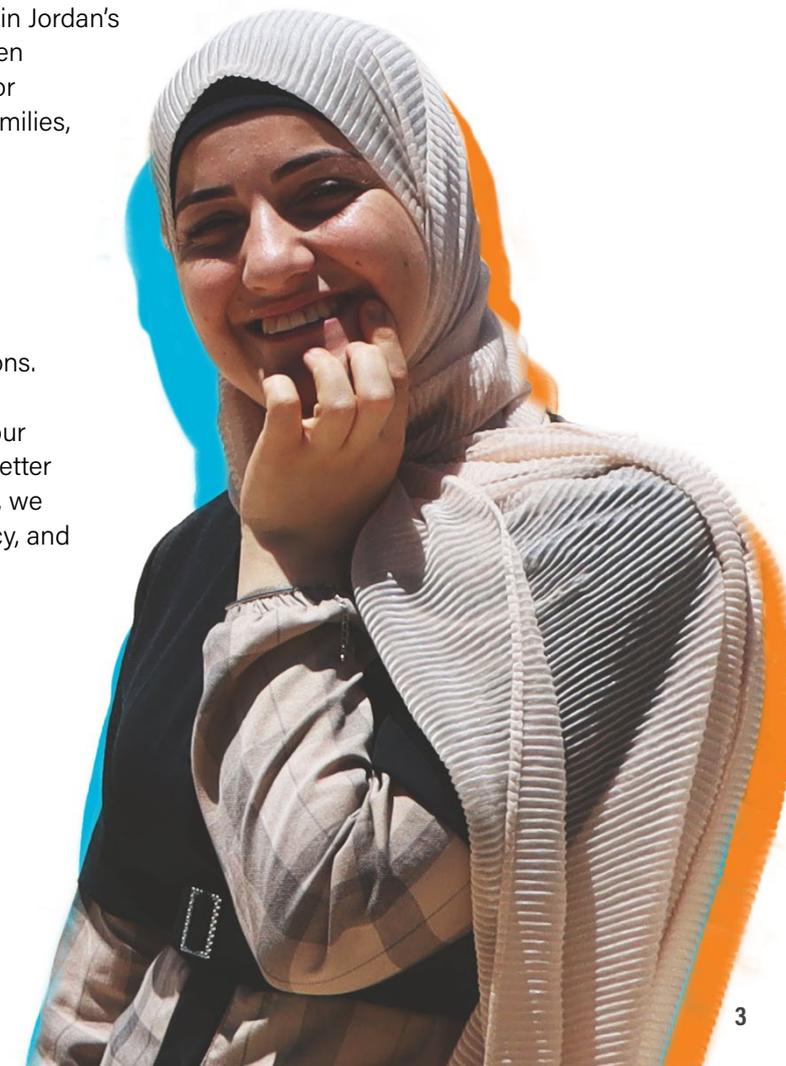

We see you not just as fund providers, but as partners in our mission. Your trust and support fuel our drive to create a better future for the communities we serve. As we move forward, we promise to uphold our values of collaboration, transparency, and respect, while embracing change and innovation.

Thank you for standing with us. Together, we can and will make a difference.

Sincerely,

A handwritten signature in black ink, appearing to be 'Muthanna Khriesat'.

# SUCCESS STORIES

A look at how Questscope is *putting the last, first.*

## Enhancing Education: The Power of Reciprocal Learning

Nabil Al-Jawarna, a facilitator in the non-formal education program, successfully utilized our Reciprocal Learning approach in traditional education, an approach that has been proven to improve engagement and performance for students. Due to our Reciprocal Learning approach, he also shared his findings with a new physics teacher, transforming his classroom into a highly interactive environment as well. This experience underscores Questscope's commitment to improving education through our Reciprocal Learning approach.

## A Refugee's Educational Journey with Questscope

Rahaf Mousa Al Mohammad, an 18-year-old Syrian refugee, overcame her educational challenges through Questscope's Nonformal education program. The facilitators supported her personal and academic growth so that she can ultimately attend university. Her story underscores the transformative impact of Questscope's program, offering refugees opportunities for personal and academic growth.

## From Data Entry to Empowerment: A Journey with the Field Guide Program

Rima, used her experience in elementary education to become a trauma counseling facilitator in the Barefoot Psychology program. She found her passion in providing trauma healing through storytelling. The program's emphasis on self-understanding and coping strategies significantly influenced her, highlighting the transformative potential of Barefoot Psychology.

## 2022/2023 BY THE NUMBERS
